

# 1<sup>st</sup> WORKSHOP

## VENUS

InVestigation of distributEd propulsion Noise and its mitigation  
through wind tUnnel experiments and numerical Simulations

**17 DECEMBER 2021 9:00-13:30 CET**

<https://venus.ing.uniroma3.it/resources/events/>

**ROMA TRE UNIVERSITY**

Engineering Department

Conference room, Via Vito Volterra, 62, ROME

The workshop objective is to share the research results matured after 18 months in the framework of H2020 VENUS project. Best approaches for designing, modeling, analyzing and testing are discussed by the project team into an open and friendly environment where participants can interact to enhance technical aspects, to make existing cooperation easier and to pave the way for new long-term collaborations.

**Attendance in person is possible by invitation only.**

**Video streaming is available after registration for free remote participation.**
